

*How can daily living aids  
keep you **independent**  
for longer?*

# Independent Living Equipment in Kirklees

---

Medequip provide the community equipment service for Kirklees Council and North Kirklees and Greater Huddersfield NHS CCG.

As part of this service, Medequip aim to raise the awareness of how simple aids can make a big difference in enabling continued independent living at home. You can try out equipment in our showroom at our distribution centre. A Trusted Assessor is available to advise and support you in identifying the right piece of equipment to suit your needs in remaining independent.

The centre offers a range of equipment from simple safety gadgets such as a kettle tipper or food chopping aid to more sophisticated products such as a powered bath lift, wheeled walkers or a riser recliner chair.
